Modular Instrumentation System

Kenmac® Series Modular 85 System

- Provides a standard modular instrumentation interface and mounting system:
  - 2- and 4-valve pressure and differential pressure manifolds
  - Instrument monoflanges for isolation and vent functions
  - Single and double purge blocks
  - Electric heaters, steam trace blocks, seal pots, filling connectors, protective shade, mounting plates, and ancillary components (transmitter not included)
Modular 85 System
- A standard series of 2- and 4-valve manifolds for pressure and differential pressure measurement
- Instrument monoflanges provide isolation and vent functions for local instrument or indicator mounting
- Metal-to-metal seals and parallel threads in accordance with BS 2779 (ISO 228/1)
- Allows pre-assembly that can reduce field installation time and cost
- Hydrostatic test certificates complete with full chemical and physical material certifications available

Instrument Manifolds

Features
- Bar handle on isolating valves
- Equalizing and venting valves fitted with antitamper feature
- All valves color coded and labeled
- PTFE stem packing is standard
- Process and vent connection: 1/4 in. ISO parallel thread (G1/4) with locking pin feature
- Supplied complete with locking pins, gaskets, and four M8 mounting plate screws
- Factory installed and tested Swagelok® tube fittings with locking pin and gasket available
- Pressure-temperature ratings:
  - 6000 psig (413 bar) at 100°F (37°C)
  - 4000 psig (275 bar) at 400°F (204°C)
- Unless otherwise noted, metal components supplied for the modular 85 system are manufactured from 316 stainless steel. Other materials may be specified upon request.
- Instrument mounting face in accordance with DIN 19213
- Cast manifold body CF8M/ASTM A351

Stainless steel handle with square drive stem and lock nut
Stem threads are cold rolled for high strength and smooth operation
Safety back seating needle seals in fully open position and provides blowout protection
Stem threads above packing protected from system media
Choice of packing and bonnet seal materials
For isolating or throttling of media flow; nonrotating, hardened needle for positive shutoff
Instrument Manifolds

Four-Valve Differential-Pressure Manifold

- Two isolating, one equalizing, and one venting valves
- Direct mounting to instrument on 2 1/8 in. (54 mm) centers and mounting plate
- Installation allows vent port to be higher than the process ports for liquid service, and below for gas service; manifolds marked for liquid and gas service
- Bolt and seal kit K7179 included with each manifold purchased

Four-Valve Differential-Pressure Manifold

- For applications where cross-contamination of process fluids is not permitted
- Two isolating and two venting valves
- Direct mounting to instrument on 2 1/8 in. (54 mm) centers and mounting plate
- Installation allows vent port to be higher than the process ports for liquid service, and below for gas service; manifolds marked for liquid and gas service
- Bolt and seal kit K7179 included with each manifold purchased

Instrument Manifolds

**Pressure Manifold**
- For direct connecting to pressure transmitters or pressure gauges and mounting plates
- One isolating and one venting valve
- Integral gauge adapter, 1/2 in. NPT for 360° positioning, 1/2 in. ISO parallel thread (G1/2) option

**Instrument Monoflange Gauge Block**
- Suitable for direct connection to horizontal and vertical pipes
- 1/2 in. ASME B16.5 flange
- Low-pressure version: 150/300/600 lb rating
  - 1440 psig (99.2 bar) at 100°F (37°C)
  - 1030 psig (71.0 bar) at 400°F (204°C)
- High-pressure version: 900/1500/2500 lb rating
  - 6000 psig (413 bar) at 100°F (37°C)
  - 4280 psig (294 bar) at 400°F (204°C)
- Integral gauge adapter, 1/2 in. female NPT or 1/2 in. ISO parallel thread (G1/2) for 360° positioning
- Supplied complete with 0.08 in. (2.0 mm) thick mounting strip for name plate, fixing screws
- Factory installed and tested Swagelok tube fittings with locking pin and gasket available
- Vent connection: 1/4 in. ISO parallel thread (G1/4) or 1/4 in. NPT option
- Cast manifold body CF8M/ASTM A351

Purge Blocks

Features
- Complete with one venting valve, one integral filter, one or two soft-seated check valves
- Suitable for connecting to instrument impulse lines on 2 1/8 in. (54 mm) centers
- Brackets and fixing bolts supplied for mounting to 2 in. pipe stand
- Venting valve fitted with antitamper feature
- Integral filter screen: 750 µm
- Check valve spring: nickel alloy
- Process connections: 10 mm or 3/8 in. Swagelok tube fitting
- Purge supply and vent connection: 1/4 in. ISO parallel thread (G1/4) or 1/4 in. NPT option with locking pin and gasket
- Pressure-temperature ratings: 6000 psig (413 bar) at 100°F (37°C) 4000 psig (275 bar) at 400°F (204°C)

Self-Venting Single Purge Block
For pressure measurement and differential pressure measurement

## Modular Instrumentation System

### Mounting Plate Assembly (Type B)
- Allows mounting of manifold, electrical connection box, or air filter/regulator, and nameplate to a 2 in. pipe stand
- Supplied complete with 2 × 7/16-20 bolts, PTFE flange seal, plug, and retaining chain
- Pressure-temperature ratings:
  - 6000 psig (413 bar) at 100°F (37°C)
  - 4000 psig (275 bar) at 400°F (204°C)

### Mounting Plate Assembly (Type A)
- Allows mounting of manifold, electrical connection box, or air filter/regulator, nameplate, and protection shade to a 2 in. pipe stand
- Supplied complete with fasteners, clamps, and brackets
- Drilled to suit all components as indicated in the modular system, process connections, and steam tracer tubing, etc.

### Filling Connector
- With integral, soft-seated nonreturn valve
- Suitable for direct bolting to the flange face of pressure transmitters
- 6 mm or 1/4 in. tube fitting with retained cap
- Supplied complete with 2 × 7/16-20 bolts, PTFE flange seal, plug, and retaining chain
- Pressure-temperature ratings:
  - 6000 psig (413 bar) at 100°F (37°C)
  - 4000 psig (275 bar) at 400°F (204°C)

### Electric Heater Block
- For use where heating of manifolds and instrument bodies is required for winterization purposes
- Power: 250 W max
- Area classification: Zone 1 Gas Group IIA, IIB, and IIC
- Type of Protection: Explosion proof ATEX certified II 2 G Exd IIC T3 and T4

### Steam Tracing Block
- For use where heating of transmitter bodies and manifold is required.
- Bolts directly to manifold body
- 10 mm or 3/8 in. Swagelok tube fitting
- Pressure-temperature ratings:
  - 290 psig (19.9 bar) at 410°F (210°C)
- Factory-installed and tested Swagelok tube fittings with locking pin and gasket available

### Accessories

#### Seal Pot with Integral Vent Valve
- Liquid chamber of 50 cm³
- Valve fitted with high-temperature graphite packing and seals
- Process and vent connections: 1/4 in. ISO parallel thread (G1/4) with locking pins and gasket
- Pressure-temperature ratings:
  - 6000 psig (413 bar) at 100°F (37°C)
  - 3000 psig (206 bar) at 842°F (450°C)
- Factory-installed and tested Swagelok tube fittings with locking pin and gasket available

#### Filling Connector
- With integral, soft-seated nonreturn valve
- Suitable for direct bolting to the flange face of pressure transmitters
- 6 mm or 1/4 in. tube fitting with retained cap
- Supplied complete with 2 × 7/16-20 bolts, PTFE flange seal, plug, and retaining chain
- Pressure-temperature ratings:
  - 6000 psig (413 bar) at 100°F (37°C)
  - 4000 psig (275 bar) at 400°F (204°C)

**Safe Product Selection**

When selecting a product, the total system design must be considered to ensure safe, trouble-free performance. Function, material compatibility, adequate ratings, proper installation, operation, and maintenance are the responsibilities of the system designer and user.

**Caution:** Do not mix or interchange parts with those of other manufacturers.

---

**Accessories**

**Port Protector**
- 1/4 in. ISO parallel thread (G1/4) plug with integral 750 µm filter screen
- Ordering number: K5840S

**Purge Orifice Nipple**
- Restricted orifice nipple and data tag plate supplied for 6 and 10 mm; 1/4 and 3/8 in. tubing
- Specify orifice size requirements when ordering

**Manifold Kidney Flange Blank**
- For protecting process lines when removing the differential pressure instrument.
- Ordering number: K5982S

**Tube Fittings**

See the Swagelok Gaugeable Tube Fittings and Adapter Fittings catalog, MS-01-140, for information.

**Protective Shade**
- For extra protection of electronic instruments against environmental conditions
- Mounts directly to mounting plate assembly
- Fire-retardant fiberglass construction with stainless steel fasteners
- Ordering number: K5983-06

**Antitamper Key**
- Fits all vent and equalizing valves within the system
- Order separately
- Ordering number: S004468

**Tubing**

For information on Swagelok stainless steel or super duplex tubing, contact your authorized Swagelok sales and service representative.

---

⚠ **Packing adjustment may be required during the service life of the valve.**

⚠ **Valves that have not been cycled for a period of time may have a higher initial actuation torque.**

---

**Warranty Information**

Swagelok products are backed by The Swagelok Limited Lifetime Warranty. For a copy, visit swagelok.com or contact your authorized Swagelok representative.
